Address: Trâu Quỳ, Huyện Gia Lâm, Hà Nội
Portfolio: www.reallygreatsite.com

OBJECTIVE

To obtain a Java Developer Intern position where I can leverage my knowledge of Java, Spring Boot, and backend development to contribute to building scalable, high-performance applications, while gaining valuable experience in a professional development environment.

EDUCATION

Vietnam National University of Agriculture (2022 – 2026)

Software Engineering

- Active member of the University IT Club
- Participated in volunteer activities such as blood donation campaigns

SKILLS

- **Programming Languages:** Java.
- **Frameworks:** Spring Boot, Spring Security, Spring Data JPA, ReactJS + JavaScript
- **Databases:** MySQL, SQLServer.
- **Tools:** GitHub, Eclipse, Postman, VSCode.
- **Other:** REST APIs, Database Design, Teamwork, Tailwind CSS, Image Editing & Design.

PROJECTS

CAMERA MANAGEMENT APPLICATION (JavaFX) (08/2023 - 01/2024)

- Developed a desktop application for managing camera products using JavaFX with a clean MVC architecture.
- Designed a responsive UI with Scene Builder and integrated with FXML for event handling.
- Implemented CRUD operations for managing camera inventory and applied validation for input fields.
- Technologies: Java (JDK 8+), JavaFX, Scene Builder, FXML
- IDE: Eclipse
